Agenda Overview

02.22.2023   3:00 pm - 5:00 pm

1. ARRIVAL & WELCOME (3:00 - 3:15 pm)
2. WHAT WE HEARD / WHAT YOU HAVE HEARD (3:15 - 3:45 pm)
3. TECHNICAL & DUE DILIGENCE SUMMARY (3:45 - 4:00 pm)
4. SITE OPPORTUNITIES & CONSTRAINTS (4:00 - 4:15 pm)
5. MISSION, VISION & FRAMEWORK (4:15 - 4:30 pm)
6. PLANNING FOR BROADER ENGAGEMENT (4:30 - 5:00 pm)
Meeting Goals

02.22.2022  3:00 pm - 5:00 pm

WHAT WE HAVE LEARNED TO DATE

• What we heard from you, key takeaways
• Groups we have communicated with
• What you have heard from other community members?

MISSION, VISION, AND DRAFT FRAMEWORK

• Technical site analysis and due diligence
• Mission, vision and values
• Site opportunities and constraints
• Draft framework direction

ENGAGEMENT

• Reaching the broader community
• Survey preview
• Site activation and engagement planning
What are your impressions after touring the property?

What surprised you?
KEY TAKEAWAYS FROM PATF MEETING #1

What we heard
What is the PATF excited for?

"EXCITED ABOUT THE UNIQUE HISTORY AND INTEREST THE ENTIRE CITY HAS FOR THIS SITE"

"BEAUTIFUL PROPERTY WITH GREAT POTENTIAL. EXCITED TO HAVE NEIGHBORS VOICES AT TABLE"

"EXCITED ABOUT THE FAMILIES LEADING PROJECT AND WILLINGNESS TO LISTEN TO COMMUNITY"

"THE SURROUNDING NEIGHBORHOODS HAVE INGREDIENTS FOR REDEVELOPMENT"

"ANOTHER LAYER OF REVITALIZATION TO SOUTHEAST COLORADO SPRINGS"

"THIRSTY, HEATED AND ENERGIZED TO BE A PART OF PROJECT"

"EXCITED ABOUT SYNERGY WITH MEMORIAL PARK"

"PART OF PIKES PEAK ENTERPRISE ZONE"

"EXCITED ABOUT THE PERFORMANCE SPACE IN BASEMENT"

"OPPORTUNITY FOR THIS TO HELP RENEW MEMORIAL PARK"
Future aspirations for Colorado Springs

"DON’T LOSE SIGHT OF THE OPPORTUNITY TO PRESERVE AND BRING PEOPLE DOWNTOWN"

"EXCITED THIS CAN DEMONSTRATE HOW MIXED-USE CAN BE DONE OUTSIDE OF DOWNTOWN"

"LET'S AN APPLY PROGRESSIVE VISION TO COLORADO SPRINGS' FUTURE"

"CONSIDER EDUCATIONAL ACCESS AND WORKFORCE DEVELOPMENT"

"SERVING ALL GENERATIONS (CHILDCARE TO SENIOR SERVICES)"

"CELEBRATE GROUNDS FOR OUTDOOR EXPERIENCES"

"BRINGING SPORTS, WELLNESS, HEALTH BACK TO THE SITE"

"PRESERVE THE HISTORY OF THE UNION IN UPH"

"GARDENING AND A MARKETPLACE FOR FOOD"

"A PLACE WHERE KIDS LEARN HISTORY"
When you imagine the redevelopment of UPH, what __________ are you considering?

**STRENGTHS**

- Pikes Peak Avenue is on the city's bike master plan
- Proximity to downtown
- Adjacencies to healthcare and employment centers
- City leadership is very supportive
- Connectivity and program-share with Memorial Park
- "I only see strengths and opportunities"
- Uniqueness of the castle building
- Tie-ins with the site's history
- Entertainment opportunities
- Vision for UPH will open surrounding sites for investment
- Entertainment opportunities
- Enhanced north-south connections through/adjacent to the site
- "I only see strengths and opportunities"
- Gentrification

**OPPORTUNITIES**

- Huge opportunity for transit connectivity
- Affordable housing
- Public art
- Bringing the community on to the site
- Memorial Park access
- Union is a major arterial and is today an unfriendly experience
- Presence of the Velodrome
- Surrounding properties are all parking; could be redeveloped
- Community engagement

**WEAKNESSES**

- Concerns about crime in Memorial Park
- Community concerns about growth and traffic
- Gentrification
- Concerns about crime in Memorial Park
- Community concerns about growth and traffic

Connecting to groups

Groups and stakeholders the planning team has engaged with to date.

- Downtown Colorado Springs Partnership
- Colorado Springs Chamber of Commerce + EDC
- El Paso County Economic Development Office
- City of Colorado Springs Planning and Development
- City of Colorado Springs Economic Development
- City of Colorado Springs Public Works
- City of Colorado Springs Forestry
- City of Colorado Springs Parks, Recreation, and Cultural Services
- UC Health
- Colorado Springs Stormwater Enterprise
- Colorado Springs Utilities
- Colorado Springs Traffic
- Downtown Colorado Springs Rotary Club (April '23)
- North Colorado Springs Rotary Club (May '23)
What conversations have you been having and what are you hearing?

City of Colorado Springs
5.6 Acres
Political Subdivision

Total Area
55.6 Acres
Market Analysis

Key Takeaways:

RCLCO conducted a sweeping market analysis of future demand in the central Colorado Springs market between now and 2040. The numbers provided served as a guide for thinking about the types and amount of uses to consider providing on-site over time.

- Considerable demand for office, including medical office space and coworking space.
- Very strong demand of new housing, of all types, including senior housing, townhomes, apartments, and condos.
- Some demand for retail, including new restaurants and a grocery store or pharmacy.
- Demand for a new hotel.
- Demand for and desire for more public-facing uses such as a conference space, a museum, a food hall, or a library.
- Although the site design will likely not accommodate all of this demand, we are working to establish a framework that features a mix of uses.
Key Takeaways:

- UPH is surrounded by mixed types of road, Principal Arterials and Industrial St
- According to Traffic Technical Memo, all traffic volumes are under capacity of 5-lane arterial streets
- Highest traffic volume through S. Union Blvd, crossing West Gateway
- Most neighborhood traffic from North side
- Key intersection - Pikes Peak Ave @ S Union Blvd
Key Takeaways:

- Existing multi-modal facilities mainly exist on South side and patched
- Disconnected pedestrian sidewalks and limited crosswalks to link UPH with context
- Loose bike trails from overall CO trail system
- Potential need for bike connection on S. Union Blvd
- Absence of bus stops on North and East edges of UPH
- S. Union Blvd needs strategic route for bikers, pedestrians and trucks
Key Takeaways:
Remove 470 trees (57%) due to condition or because of their locations in relation to other trees to try and prevent competition or damage to infrastructure. Specific reasons for the recommendation for removal are:

- The tree is dead;
- The tree is in poor condition and thought to be beyond rehabilitation;
- The tree is over-mature and will continue to decline in condition;
- The tree has significant structural weaknesses that cannot be addressed;
- The tree is already or will interfere with infrastructure (overhead lines for Example);
- The location value for the tree is poor or unacceptable (for example, large maturing; tree growing directly under overhead lines); and/or,
- The tree species has been declared an invasive for the given area or region.
Remaining Trees

Recommended Trees to Remain (After Phase 3)

Key Takeaways:
357 Trees to stay

Recommendations:
1. Healthy soil / soil care, 343 trees
   - Recommend soil samples testing
   - Soil moisture - recommend Reclaimed Water
   - Bulk density test - for compacted soil
   - Nutrient - Bartlett’s Soil Rx® program, 7 Trees
   - Root invigoration - improve soil conditions, 58 Tree
   - Mulch applications - wherever possible
2. Root Collar Excavation, 341 trees
3. Plant Health Care, 84 trees
4. Tree pruning, 332 trees
5. Developmental Pruning, 10 trees, for young/small trees
6. Vine Removal, 2 trees

Tree Value:
Estimated All Tree Asset Value: $3,244,412.39.
Top 10 trees highest estimated tree assets value: TREE ID: 152,98,153,185,16, 731,149,101,85,188: $ 183,152.60

---

Top 10 Highest Assets Value Trees

---

Tree to Remove

Tree to Remain
**Critical Heritage Trees**

*Trees of Significance to Protect from Development*

**Key Takeaways:**
- 73 Trees to stay
- Young and Semi-Mature
- In good or fair condition
- Under low or no risk rating
- All in Tree & Shrub Work Phase 2 & 3, or no Tree & Shrub Work requirement
Site Constraints

Key Takeaways:

1. Overhead powerlines along north boundary and through east parcels
2. Projected traffic delay at Pikes Peak Ave & S. Union Blvd. Need to cut down 12% northbound left turn. Projected extension of northbound right turn deceleration lane from existing 80 feet to 260 feet. However, existing utility, trees and topo limit the lane extension.
3. Inconstant urban street walls
4. Potential limited size of regional detention ponds on site
5. 57% trees to be removed
6. Permanent improvement easement on North Entrance of site
7. Historic buildings and underground tunnels developments
8. Unsure South & East parcels development
9. Bike lane on South along S. Parkside Dr not at biker-friendly scale or connected to city bike trail systems
Castle
Architecture Due Diligence

ENVELOPE

- Reconstruct stairs and railing with salvaged and new stone to match original.
- Reconstruct porch elements, provide new stone where necessary to match existing.
- Reconstruct crown detail, provide new stone where necessary to match existing.
- Repoint balustrade, replace severely deteriorated units as necessary to match existing. Note: Reconstruction may be necessary in order to accommodate new waterproofing at terrace.
- Repoint sandstone header course, repair or replace cracked stones, provide steel support lintel at locations of cracked stone lintel units.
- Repoint sandstone masonry, repair cracks, patch large delaminated areas, replace severely shaled or cracked units as necessary to match existing.
- Replace steel lintel.
- Perform further investigation of masonry cracking and repair.
- Repoint white lava stone, repair cracks, patch large delaminated areas, replace severely deteriorated units as necessary to match existing.
- Perform localized repairs to existing window and install new storm window.
- Clean all surfaces to remove biologic growth and atmospheric soiling.
General Conditions

Castle
- Architecture
- Structure
- Envelope
- MEP/FP
- FF&E

Dorms
- Architecture
- Structure
- Envelope
- MEP/FP
- FF&E

Boiler Building
- Architecture
- Structure
- Envelope
- MEP/FP
- FF&E
Key Takeaways:

1. Potential to create regional impacts ecologically, economically, socially and culturally
2. Connection with Memorial Park to create continuous green space
3. Preserved half amount of trees on site, and rich existing soil to support future plantings
4. Historic buildings on the highest point on site, provide full-range visibility from the context
5. Regional detention ponds could connect with existing detention pond on South to create stormwater system
6. Existing bike lanes on South along S. Parkside Dr, and projected to be connected with city trail system
7. Opportunities to create iconic
Generate identifiable gateways
Connect the site to its context, while introducing a human scale
Create active edges on the perimeter
Celebrate the heritage of the site by creating a multi-faceted experience
Leverage existing view corridors and create new ones to the castle building
Establish strong connections with Memorial Park & Legacy Loop
Create a mixed-use ecosystem of programs that activate the site
Transition from an inward looking campus to an outward facing destination
Develop a community hub and destination: A new ecosystem for Colorado Springs
Protect, connect and enhance the existing healthy trees, stitch nature and architecture together
Capitalize on the existing topography and high-ground of historic buildings to integrate development and parking
Utilize existing grades and hydrologic flows to capture and cleanse stormwater and create a resource for the site.
What’s the History?

- The central axis with tree-lined allee defined the early UPH campus, which represented a grand, meaningful to the site.

- Colorado Springs has been home to many sanatoriums, including UPH, due to the dry mountain air and plentiful sun. This legacy provides a strong foundation for wellness and recreation on-site and robust connections to regional outdoor recreation opportunities. There is an opportunity to amplify this on site by utilizing planting and landforms, and bring forward that tradition.

- The site topography has historically defined the location of buildings and pathways. The grid-like structure of the historic site contrasts with the nonlinear entry drive ‘circle,’ which replaced the original tree-lined linear entry.

- An in-house dairy farm, including facilities for dairy cows and chickens, operated for many decades, providing food for residents of UPH as well as the local community. Consider ways to bring back community-centric agriculture, self-sufficiency, and local production.
1. EVER-CHANGING NATURE

The Castle and its adjacent buildings have experienced multiple transformations, expansions and program adaptations through time. This is not a static site. It is dynamic and in constant evolution. We have seen changes in Landscape (entire alleys of trees that were cleared), in program, in buildings. We are seeing a moment frozen in time, but we are part of making History as well. Since there is no initial Historic Designation, it will be up to us to decide what is valuable and how to honor and celebrate it.

2. FRONTALITY

The main facade we see today at The Castle was meant to be experienced frontally from a single point of entry to the site. This main entry got duplicated and out of the central axis as the building expanded. This frontality prevents the courtyard behind The Castle to be more than an utilitarian open space, but in the future plan we see this space as a key component for the design.

The Castle will be now in the middle of a larger site. Entries, accessibility, and porosity of ground floor are important pieces to reconsider as we think of the value of the ground floor and the pedestrian experience.

3. GROUND POROSITY

Ground floor at all existing buildings appears to be quite solid and prevents from any synergies between them. As we rethink their positioning, what opportunities does the redevelopment open since the Castle and all surrounding buildings will be experienced from all directions? What indoor/outdoor relationships can we foster among them? We would like to take on a key aspect of Union Printers architecture, which was the synergy between the structures and the open spaces. Used for growing food and cattle, healing purposes, and now recreating and wellness, the indoor and outdoor relationship will be an essential piece of the design.
4. VIEWING PLATFORMS

Terraces and porches at The Castle, as well as at the Dorms, have significant importance for the relationship indoor-outdoor. These features act as gathering spaces that enhance views towards the mountains, as well as access to natural light and fresh air. Sometimes they position up over the trees canopies and allow us to understand the whole site from above, such as the rooftops. These spaces pose the potential of being great public spaces, and elements we would like to preserve, rethink, and design with.

5. STYLE EVOLUTION

An interesting discovery through the research on the site and architecture evolution, has been the realization that expansions and new buildings have reinterpreted the vertical cadences and massing of the original buildings, in an attempt to interpret them through the lens of the style at the time.

This reinvention opens the door to look at the future from a lens of interpretation, rather than replication.

6. DESIGN FOR ADAPTABILITY

The adaptability of the existing buildings has been restricted by the rigidity of the architecture and its lack of flexibility. Multiple expansions have modified the integrity of the architecture to allow for large gathering spaces such as the dining, since the original building couldn't accommodate it.

As we move forward, one lesson we have learned is to design with a flexible mindset as to what these and future structures will become program-wise. While there is not a one-size-fits-it-all, we need to think of flexibility as a factor for design in architecture and systems that can host both today’s and future potential uses.
UPH Partners' Mission

During its 130-year history, Union Printers Home has been a destination for healing, a prominent landmark within the city, and a curiosity for generations of Colorado Springs residents and visitors. UPH Partners purchased the property in 2021 to protect its most significant historic assets and breathe new life into the site. Developing a carefully crafted master plan, UPH Partners will steward a redevelopment strategy of Printers Hill into a destination for the City of Colorado Springs, the Front Range and beyond. It will be an authentic mixed-use neighborhood and a source of inspiration and community pride.
UPH District Values

The redevelopment of this site centers around the concept of enriching the mind, body, and soul. Each of these interrelated themes ties back to the site's history as an innovative and experiential national health and wellness destination. Today, as a dynamic urban district, these concepts drive decisions from architecture and design, to programming and public realm, to tenants and branding. Printers Hill is a holistic place for all people, rooted in its authentic history and its relationship to Colorado Springs’ majestic context.
UPH District Values

Mind

This is a place of innovation, entrepreneurship, and collaboration.

» Welcomes innovative and creative professionals with an environment and spaces that fuel their work and imagination.

» Provides a platform for collaboration at all scales through creative programming, placemaking, and a focus on learning.

» Establishes a sense of creativity and ingenuity through the integration of art and sustainability at all scales of public realm and building.
UPH District Values

Body

This is a place of activity, health, and wellbeing.

» Establishes a unique destination within and of Colorado Springs, with a focus on providing rich and diverse experiences for residents and visitors alike, offering vibrancy and vitality throughout the day and night and year-round.

» Fosters a place that celebrates and cultivates Colorado Springs’ legacy as an international sports and health destination with an atmosphere focused on enhancing wellness.

» Employs sustainable landscapes that contribute to a healthy ecosystem, preserve heritage tree canopies, and provide productive spaces for community use.
UPH District Values

Soul
This is a place of gathering, community, and inspiration.

» Infuses the site’s distinct history, location, topography, and relationship to the surrounding scenic landscape into the district’s identity and users’ experience.

» Creates a vision with long-lasting controls to ensure the long-term protection of the site’s legacy and essential historic resources.

» Provides a diverse range of living opportunities that interface intentionally with a robust network of community gathering spaces to foster a sense of community and comfort for all people.
Printers Hill is a new kind of neighborhood in Colorado Springs.

A holistic, modern, and urban community is shaped around one of the city’s most historic and revered architectural assets—the Union Printers Home. The unique value of this 130-year-old building and its legacy as a place of wellness and connection to the Front Range serve as inspiration for new experiences in this central-most part of the city.
UPH Partners' Vision

This is a place that will fuel the next century of prosperity in Colorado Springs.

The larger district, alongside the rehabilitated “castle” building features creative design, embraces the property’s distinctive landscape, stitches together neighboring communities, and provides a diverse and enjoyable public realm for all to enjoy. It offers a range of living types, a collection of some of the best entertainment, retail, and cultural experiences in the region, and a nurturing environment for creativity and innovation.
UPH Partners' Vision

This is a place for locals and a destination for visitors.

Printers Hill is a vibrant, cohesive new neighborhood that is defined by a universal focus on hospitality and the warm welcome it provides to this extraordinary property and to Colorado Springs.
The physical design of Printers Hill is a manifestation of the mission and values. Its form, uses, character, and performance are a testament to the passion its creators have for the site and the city.

Engagement
How can we engage with the broader community?
Potential Outreach + Engagement

BROADER COMMUNITY
- SURVEY
- PROJECT WEBSITE & ONLINE ACTIVITIES
- STORYTELLING OPPORTUNITIES

MEETING THE COMMUNITY
- COMMUNITY OPEN HOUSE
- EXPERT OPINIONS
- FOCUS GROUPS

ON-SITE EVENTS
- WALKING TOURS
- ART INSTALLATIONS
- POP-UP ACTIVATIONS
Community Open House

Goals:

» Invite the community on to the property to see it for themselves

» Hear about the community's priorities for the future of Colorado Springs

» Inform community members about the project and the opportunity at UPH

» Learn about community stories and experiences that can influence the future of UPH
Community Activities

Open House

Farmers Markets

Community Festivals

Transit talks

Schools

Art Walks

Block Party

Food truck festivals
What are some local community events we can tap into?
Visioning Survey

**Union Printers Home Plan Community Survey**

If and when you use Memorial Park, what do you do there?
- Use the recreation fields/courts
- Walk the paths
- Sit by the lake or on the beach
- Paddleboard or kayak
- Go to the playground

Type your answer
